Introduction

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

It is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

FIRST PART

**Chapter 1:
Your essence. Your self. The Sun.**

**Character is destiny. By improving
your personality you create good
conditions for your future.**

Sun in Leo:

Bill, you were born under the sign of Leo and your ruling planet is the Sun, which endows you with great personal pride, authority and vitality.

You are a very noble person who will always be straightforward and frank. You feel great personal security and will be capable of excelling, allowing you to be a leader in whatever you do. You are an idealist and a defender of the underdog or those who suffer any injustice. You will live life with a lot of intensity and will be dramatic in expressing your emotions. You want people to pay attention to you at all times and you do not like the idea of being alone.

You are a very creative person and always give your personal touch to the things you do. You will be able to excel in any artistic or social activity. You like to share your achievements, and your generosity will be unlimited, especially with those you admire or love. People will look to you for your great sense of humor, for the power you impart and for your vitality, although these things will also make you the center of criticism and jealousy.

To fall in love you must admire the woman. You will never be able to fall in love with someone if she does not have personal qualities that will make her different and outstanding. You feel that you deserve the best and are willing to search for it. You like to see sincerity, decisiveness, ambition and intelligence in the other person. You will be passionate and very loyal to love; once you choose, you will probably do it forever and you will ask for loyalty from your companion. You are willing to do all that is necessary to have your home prosper. You will not resign yourself to any crisis or problem that appears, instead you will triumph over it.

Bill, you were born to occupy important and influential positions in life. Your words, your image and your ideas will serve as a guide for many people. You were born to lead, to command, to direct, to impose justice, to create, to express and to communicate.

One of your missions in life is to teach others to love; you will work for love and happiness. Your personal pride will teach others that true love begins with oneself; your positive and optimistic attitude will show others the way to accomplish things.

To evolve, Bill, you need to learn to control your personal vanity, your infantile and whimsical attitudes, your selfishness, and your tendency to exaggerate the facts and create dramas that do not exist. You should avoid depending so much on the approval of others and also lose the fear of seeming ridiculous. It is important that you avoid arrogant, contemptuous or authoritative attitudes; you should also control your predisposition to seek luxuries and be ostentatious.

Sun in 11th house:

Your sociability and ability to relate will draw you towards important and influential personalities, especially masculine ones, who will benefit you in the future. It is possible that you will have friends who will come to occupy positions of authority, such as managers, directors, governors, etc., and who will lend you a hand in your career.

You have great desires for your life. You are an idealist and you are willing to fight until you succeed in what you want. You can perform very well in group activities becoming the leader of some of them. You are concerned about social matters and you like to know that you are improving life in your society.

It is also possible that your marriage relationship will start as a friendship, only becoming romantic over time.

Sun Square Moon:

A conflict exists between your ego and your own emotions. You can overreact in certain situations. At times, you will deem your individuality and personal objectives more important; at other times, your feelings, relationships and family life will prevail, making reconciliation of both sides of your life difficult.

You have absorbed much of the unbalance and problems of your family during your childhood. It is possible that your parents are separated or that they do not get along. You do not want to live in the same

situations that they did and when you feel yourself falling into similar patterns, you react strongly creating a crisis around you. This aspect can bring difficulties to your marriage, especially if you compare your wife (or yourself) with your parents. You can find that your wife has certain fears or personal insecurities, or that she does not assume responsibilities as she should, and you will grudgingly assume her duties at times.

Emotional problems can also alter your health or your concentration on daily tasks. It can be difficult for you to work and take care of your home at the same time. This conflict can be overcome by reconciling the masculine and feminine sides of your personality. You must learn to make decisions, assume responsibilities, and be constant, without letting your feelings interfere. You must control your mood swings, especially when you become negative or pessimistic, and, mainly, you must stop trying to find a scapegoat. When you recognize and control these self-destructive tendencies you will begin to grow and overcome this astrological influence.

Sun Sextile Jupiter:

You are very pleasant, happy and positive. You have an optimistic attitude that will allow you to obtain what you set your mind to without much effort. You will radiate happiness and enthusiasm to people around you, which will increase your popularity and the possibility of receiving favors from those who love you.

It is probable that you tend a bit towards laziness and complacency. Your optimism can lead you to analyze situations lightly and to be careless about details. Anyway, you will always be lucky and this will help you to continue to grow.

In addition, this astrological aspect favors your relationship with your father and also with your wife. You will choose a happy, positive and protective woman.

Sun Sextile Uranus:

You are a very creative, original and independent man. Your way of thinking is very special and illuminating to others. You have to learn to trust your intuition and your innovative capacity because many of the ideas you conceive concern the future; they will probably be misunderstood at first, but eventually they will be very useful.

You will be very curious and can experience many voyages throughout your life. You will always act independently and will teach other people to respect their own freedom, just as you do. Your professional activity can result in your influencing groups or social movements.

The relationship with your father will be unusual and from him you will learn many original and individual concepts. Your admiration of him will allow you to develop your creativity with more vitality. This same influence can offer you a happy marriage with a different, inventive, restless and very intelligent woman.

Chapter 2: The Moon. Your emotional world.

Moon in Taurus:

Your emotions are deep, stable and lasting. Your feelings towards a person can be for life, which will make you loyal and trustworthy. In your emotional world you search for security and protection. You will act cautiously while you get to know someone and you will open your heart little by little. You immensely enjoy physical contact, caresses and hugs, becoming very sensual with your partner. If you do not receive the stable emotional response that you need you can turn to the materialistic world in an obsessive way, developing a strong sense of possession that will lead you to buy objects and accumulate money.

You have the ability to solve problems thanks to your emotional control; you do not let yourself become bewildered easily and you prefer to take things calmly. Your rhythm will be slower than that of other people. You react gradually to situations and not in a sudden manner. You assimilate ideas little by little and become clumsy with haste. You have a good memory and your ideas are fixed. It is unlikely that any change in mood will affect your original opinions. You also have a great manual ability that will lead you to perform well in any manual or artistic task such as gardening.

It is probable that your mother is possessive and a bit materialistic. Her insecurities lead her to hold on to that which is known, traditional and solid, and you have learned from her to react in the same way. You also inherit from her your tenacity and perseverance.

Throughout your previous lives you have been accumulating goods and today it is hard for you to act with detachment and freedom. You can remain tied down even to those things or people that harm you or limit your freedom. It is probable that you have not yet learned to trust in the retribution of the Universe and you fear for your future economic situation. You must avoid your "poverty conscience", obsession, stinginess, and develop more internal security, trusting in your own resources and productivity, and, basically, you must learn to possess with detachment.

Moon in 8th house:

Bill, you are very intuitive and are prone to having experiences in the psychic arena. You are attracted by the mysterious in general and the occult sciences in particular. You can have accurate intuitions or very revealing premonitions and dreams that will allow you to act before the facts are known.

Your emotions are not superficial and you live every instant with a lot of intensity. Your sexual life is also very important and you must eliminate the taboos or repressions that inhibit you. The lack of emotional control could cause crises or health problems; you must learn to control your jealousy, anguish

or anger.

You will demonstrate the ability to manage the money or property of others. Throughout your life you will find yourself favored by inheritances, gifts, or by marriage to a wealthy person.

It is also probable that you have to contend with your mother's authority and her tendency to want to manipulate you.

SECOND PART:

Your destiny according to the 12 astrological houses.

FIRST HOUSE: Your personality. Your body. Your childhood.

Libra Rising Sign (1st house cusp)

People see you as a soft, gentle and beautiful man. You have a great talent and natural personality that allows you to relate easily. You are sociable, kind and enchanting. Your manners are fine and delicate, and you dress with good taste and refinement.

You search for balance and harmony around you. You cannot stand aggressiveness or ill treatment, so you escape from rude people and tense situations. You are romantic and dream of finding the perfect love, which makes you easily disappointed with people. You have much talent for seduction and conquest, and generally get others to bend to your whims. In addition, you have a strong sense of justice and you always analyze the two sides of each situation; that causes you to be indecisive and have strong doubts at important times. Commonly you repress your aggressiveness in order to maintain harmony and you hold a grudge towards those who hurt you. You must learn to forgive and forget.

The inclination towards pleasure lead you to neglect nutrition. You are probably attracted to sweets and that may endanger your silhouette. Also, your indolence does not encourage you to maintain constant physical activity. Your body shows balance and functions well; it is important that you do not neglect it. Music and art are the ideal therapy for you.

Your childhood was harmonious and pleasant. It is possible that you did not have any traumatic experiences or that they were easily overcome. You grew up in an atmosphere of plenty and were overprotected by one of your parents. As an adult, it will be hard for you to sever the umbilical cord and you will always be aware of your family's needs. If the overprotection was exaggerated, then you will be immature, highly dependent and often whimsical.

Venus in 1st house:

You are handsome and possess personal charm. Your geniality and sweetness conquer the people you meet. Your manners are gentle and delicate and you dislike noises, violence and haste. You will develop a great aesthetic sense and could excel in an artistic activity. This same influence makes you successful socially because you will be loved and sought after. Your warm and pleasant tone have a relaxing effect on others. You are greatly attracted to pleasures in general, and therefore you must have good dietary habits. Soft music and pastel colors always have a soothing effect on your temperament. You take care to look good and your taste is refined: this will exalt your innate physical beauty. You solve your conflicts with diplomacy, avoiding tension. On the negative side, you can tend towards being lazy and indulgent; you are cooperative and prefer to be assisted by others instead of managing for yourself. One way or the other, your charm will be irresistible.

Venus in Libra:

Harmony, social relations and marriage are very important to you. You enjoy the company of others and you are a well loved person because of your personal charm and gentleness. You are very obliging and care deeply about assisting your loved ones. You feel attracted by beauty, luxuries and art in general; you possess many talents and surprise others with your artistic abilities. The opposite sex finds you very seductive. You are very idealistic about love and your feelings can be hurt easily because you will not stand for aggressiveness or disquiet. With this astrological position, it is sure that you will be a happily married man.

Venus Conjunction Mars:

You are very sensitive and also sensual; you combine warmth with energy. In love matters you are very demanding and passionate, almost extreme with your feelings: from a great love to hate and vice versa. It is probable that you exhibit this behavior towards your father and it is important that you learn to balance your emotions. You will be dominant and somewhat selfish.

Venus Conjunction Neptune:

You will be an eternal romantic, dreamer and idealist. You love music, poetry and all types of artistic beauty. Your great inspiration can lead you to excel in art. You idealize the people you love and your basic problem is accepting reality. Your spirit is peaceful and you will seek calm places to live and work, and, additionally, you love nature and animals, and the company of a pet could have made you very happy in childhood. You must learn to see the real world as it is without simultaneously destroying your fantasies. You can be very naive and are prone to disappointments in love.

Venus Sextile Pluto:

You possess a great ability for leading and could be a very good teacher, preacher or politician. You have expressed strong and clear opinions since childhood. You are honest, intuitive and very dedicated to your goals, showing a strong passion for the things you really like. Your gentleness and charisma will allow you to convince others. In the future, you will experience jealousies and arguments but do not be

overly concerned because it will help you reinforce your affections.

Mars in 1st house:

You are positive, secure, combative and very active. You possess much physical strength and a great dynamic energy that will impel you to do many things. You must learn to control impatience or aggressiveness and to direct those energies in a constructive manner. Thanks to your great enthusiasm, you tend to dominate, becoming the leader of the group. You are practical; you also possess the courage to confront new enterprises. Often you will be the first to accomplish some task. One of the problems which you face is your extreme restlessness and impulsiveness which can make you get bored quickly. This great energy can be channeled very well through the practice of a sport or other physical activity that requires the use of your muscles. You enjoy competition and challenges and you feel attracted to risky situations which makes you prone to falls, bruises or burns. Your parents should have sought creative outlets for your great energy instead of repressing or controlling it. Remember that you were born to be a leader.

Mars in Libra:

You possess a strong sense of justice and will combat all that you consider unfair or out of place. You feel comfortable working with other people; you will learn that you can achieve more functioning in a group than alone though you will also occasionally feel jealous and competitive. It is important that you learn to not depend on others, or you will lose your self-confidence and will find it difficult to make your own decisions. Bill, you are a charming, generous, sociable and persuasive person. You like to enjoy yourself with people and new ideas. On the negative side, you can show a tendency towards laziness, making very little effort to achieve your goals. With your sweetness and charisma you can manage to make others cater to you without any effort. It is recommended that you train yourself physically to nurture the current of energy in your body and combat the tendency towards being overly comfortable. Your humor and sensitivity are stimulated by music and colors; soft lights and a harmonious environment will quickly balance any irritation or depression.

This influence can bring you a whimsical or selfish companion, who will complicate your life together. You must learn to deal with what could be a somewhat infantile, jealous and authoritative woman.

Mars Conjunction Neptune:

You possess much imagination and your emotional world is intense, requiring escape valves for the pressure. You are very idealistic and easily become enthusiastic about people, which exposes you to future disappointments. You can fear your own aggression and escape into fantasies when you confront a situation that requires your authority and fierceness. Your spiritual world can also be very deep and your faith will be one of your biggest motivations.

Mars Sextile Saturn:

You show a great ability to direct your energies in an organized and disciplined manner; you know

when to hurry and when to wait. Your constructive energy will lead you to excel in fields such as engineering or the military. You are very noble, sincere, and respectful of the rights of others. You care for your family and your friends, and are very loyal.

Jupiter in 1st house:

You possess a happy, kind and optimistic disposition. You have a great sense of humor and much vital strength which will lead to a great future social success. You enjoy life; you are very generous and help others. You tend to do everything in a big, excessive and effusive manner; similarly, your own body tends to be big. Hopefully, your parents taught you to eat moderately to avoid weight problems. You are very attracted to traveling and you have a great desire to discover every part of the world; this impulse could lead to frequent travels or many changes of residence. The main problem you face is that you tend to be excessive; you can also be disorderly and lack discipline. Your carefree and happy attitude could cause you problems with restrictions and authority or you could be a bit lazy or perhaps overly fond of being assisted. But any defects that this astral influence could bring are dissipated because you show a happy face to the world and a very positive attitude towards life. These are the main factors that explain your great luck in almost every aspect.

Jupiter in Libra:

Since childhood you have learned to recognize beauty everywhere. You are elegant and precise in your movements; you attract others and could be very popular and loved. You will develop a strong sense of justice and will always defend the rights of others, even when they do not request it. In your search for balance you could be excessive and when the time to choose comes, indecisive. This astral influence helps insure future marital happiness.

Jupiter Trine Uranus:

You possess a great originality and creative power. You are determined and practical and will achieve any goal that you set out to do. Your personal freedom will always be important and you will resist ties and limitations. You possess a great mental energy, and though you could be very warm you will not be sentimental.

Neptune in 1st house:

You were born with charm, mystery, magnetism and charisma. You are refined, likeable and very imaginative. Your fantasy world is enormous and you will be tempted to spend the majority of your time there. You are an eternal idealist exposed to deception and disillusionment with the people you love because of not seeing them objectively. Your refined sensitivity will allow you to perceive the internal motives of the people around you; in addition, your intuition is notable and it is possible you have had paranormal experiences since childhood. During your adult life you will feel very attracted to mystical and metaphysical subjects. Often you will seem to experience emotions that are not your own but from your environment, which means that you will be charged with the energy of other people. This could alter your mood and at times harm you.

Water will be your healing element and to live near the coast or on the beach would be very comforting to your spirit. Inspiration and imagination characterize your personality making music and theater particularly apt for you, though all artistic manifestations seem to be suitable to your temperament. On the negative side, the presence of this star could generate in you certain fears or insecurities. It is to be hoped your parents did not resort to fearful images to control you during childhood, when you were so sensitive and impressionable, but instead, fed the great sensitivity you possess.

Neptune in Libra:

Your generation is interested in new concepts concerning law and social relations. They are altruistic, humanitarian, passionate and lovers of peace, but they could also show an impractical, lazy or unwilling side. Well, as a part of your generation, you must choose your companion and best friends carefully, because your tendency to idealize and not see things realistically will lead to deceptions. If you do not act coherently and with a certain emotional detachment when making your marital choice, this astrological position could lead to a future separation.

SECOND HOUSE: Money. Assets. Resources.

Scorpio on 2nd house cusp.

Throughout your life you will experience extremes in your economic situation. On one hand, you may inherit goods or marry someone of means; on the other hand it is possible that you suffer moments of crisis or limitation. In both cases, the determining factor will seem to be independent of your will. It is recommended that you learn to save and find a point of stability.

You can gain profits by managing the goods or money of others, by doing research, by occupying positions of authority or by entering a profession related to medicine.

**THIRD HOUSE: Your mind. Your education. Short trips.
Your brothers and sisters.**

The mind is a magnet: it attracts

**to you exactly what you
think about.**

Sagittarius on 3rd house cusp.

Bill, your ideas are humanitarian and altruistic. You are interested in studying and increasing your knowledge in all areas. Also, you have a strong sense of justice and you are sensitive to discriminatory, unjust or painful situations.

Your mind is curious, optimistic and happy. You will investigate philosophy, questioning everything related to life. You integrate solid ideas with abstract ones, possibly coming to important conclusions. It is recommended that you never neglect your intellectual field and that you become dedicated to your studies. You tend to be lazy and to jump from one subject to another. It is possible that you have studied in a religious institution but you are an intellectual and you question most of what you have studied.

You will possibly take many trips, some of them to foreign lands, probably visiting siblings (if you have any) or relatives. Also, you show ease in learning languages and in communicating openly anywhere.

FOURTH HOUSE: Your home. Middle Age and Later Years.

Capricorn on 4th house cusp.

You grew up in a disciplined, organized and possibly unemotional home. One of your parents had a lot of authority and it is possible that the relationship you maintained with that parent was not very loving.

During your maturity you will feel secure and stable thanks to real estate or properties that you have accumulated. Many of your material ambitions will come to pass and you will work in outstanding and powerful positions if you continue to work.

This astrological influence will lead you to search for retirement and isolation from noise and social life. You will prefer to live in a solitary and calm place where you can reflect and rest peacefully.

It is important that throughout your life you do not leave anything unfinished, because if you do you will experience frustrations and regrets during your senior years.

FIFTH HOUSE: Love. Romance. Children.

**"Love is blind when it is born,
nearsighted when it grows, and
it sees all when it dies."**

Aquarius on 5th house cusp.

If there are no other planets that indicate more offspring, it is possible that you will have only one or two children. Your children will be very intelligent, curious and rebellious. It will be difficult for you to command them by force; you must use dialogue and the exchange of ideas to foment a sincere and open friendship with them.

Your romantic life will be unusual and surprising. You associate love with whatever is different, special and unique, which leads you to find an extraordinary woman. You are not interested in formal or classic relationships. You dislike conventional ties but that does not mean that you do not want to have a relationship; you want to find a companion who respects your freedom and individuality. Free love, without conditions or ties, is your ideal.

This astrological influence will make you experience fiery romances of all kinds and it seems that you attract complicated people who are difficult to understand. To be happy, it is necessary that you accept unconditional and unprejudiced love. Do not expect your family's approval of your romantic choice.

The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.

Libra:

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

Scorpio:

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

Sagittarius:

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

Capricorn:

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

Aquarius:

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

Pisces:

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

Aries:

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

Taurus:

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

Gemini:

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

Cancer:

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

Leo:

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm relationship, though probably it will not be lasting. If other common elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

Virgo:

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that she does to you is what you did to her in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

SIXTH HOUSE: Health. Nutrition. Work. Service.

Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.

Sun in Leo:

The sign of Leo rules the cardiovascular apparatus in its entirety: the heart, ventricles, valves, arteries, etc., and also the spleen and spinal cord. You are very vital and will not suffer serious health problems. Your personal pride will not allow you to let yourself be overcome by any physical ailment but you must beware of your worst defect: excessiveness. It is difficult for you to limit yourself and once you undertake an activity, be it physical or mental, you do it until exhaustion. In contrast with your periods of intense activity, you also have moments of laziness and physical inactivity. In addition, you love the good life including various pleasures and delicious foods. If you gain weight and/or do not exercise, your heart will tire more rapidly.

To preserve good health, you must consider the following: maintain a semi-vegetarian or macrobiotic diet, avoiding red meats, salt and fried foods; search for an outlet for your intense emotions through some type of artistic activity; do not take on too many things at once; do not overexert yourself; avoid smoking and drinking alcohol; perform respiratory and relaxation exercises; practice some type of competitive sport; sun-bathe and spend time outdoors; laugh and enjoy yourself without overindulging; speak and communicate freely; and try to be more patient and less aggressive with people with whom you do not get along.

Saturn in Leo:

This astrological position can cause hardening of the arteries, constriction of the coronary veins or arteries, heart atrophy, weakness of the heart muscle, and circulatory problems in general. These difficulties originate because of the lack of calcium, magnesium or potassium. It is also possible that your heart is smaller than normal.

Pisces on 6th house cusp:

Your short term health problems may be caused by the presence of toxic substances in the body (alkaloids, metals, mercury, lead, cadmium, aluminum), or the lack of pantothenic acid. Your most common problems will be: allergies, general weakness, laziness, lack of muscle tone and foot problems. You are likely to be exposed to errors in medical diagnosis, so consult two or more professionals in cases involving severe treatments or surgery.

To prevent these problems it is recommended that you add to your diet the following foods: broccoli, cauliflower, lentils, soy and its derivatives, mushrooms, soy sprouts and alfalfa, avocados, pineapples, oranges, lemons, melons, apples, and nonfat milk. Also, it is important that you use comfortable shoes that are not too tight, and walk barefoot whenever possible.

Your long term health problems may be caused by a lack of the vitamin B complex. Your most common ailments are related to the intestinal system: colic, constipation, diarrhea, being malnourished, etc.

To prevent these problems it is recommended that you add to your diet high fiber foods to help the elimination of body waste. It is also recommended that you add legumes, whole grains, nuts and seeds, asparagus, corn, lentils, watercress, coconut, grapes, peanuts, wheat germ, egg yolk, etc. It is important that you drink plenty of pure mineral water.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

SEVENTH HOUSE: Associations. Marriage.

**Your companion is your reflection.
Everything you find in her, in
some way is in you.**

Aries on 7th house cusp.

It is possible that you will marry young or that your decision to marry will be made in a precocious or impulsive manner. You choose a dynamic, active, strong and a somewhat aggressive woman as a wife. You need by your side a dominant and secure woman who is sure of herself and who offers you protection and, at the same time, encourages you. It is possible that your married life will not be as calm and stable as you desire, and that throughout crises will occur. Your more common complaints will be about her selfishness, lack of gentleness, infantile or whimsical attitudes, and her explosive temperament that leads to violent situations.

You must understand her and endure her angers without being a part of them. Otherwise, the sum of the tensions could lead to a divorce. In time, your marital situation will become more stable, calm and happy.

You must not make the mistake of blaming only the other person for marital problems. You must learn to see your part in it, to control your idealism and to take a more decisive and active role in the union.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is her own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others.
