Absolute Soul Secrets

Sun in Leo:

Leo: Key Words: How great thou Art! What more needs to be said?

"I did it for you, what do you mean you won't do it for me?", says the unappreciated Leo. That sums up the main characteristics of the Leo native, except they need to communicate without the use of a sledge hammer to bring their point across.

Positive attributes for Leo natives is that they don't carry grudges in any situation, it is too much of an effort, instead Leo's carry coolers full of party favors around with them at all times, just in case an opportunity for fun and amusement comes up, and oh yes, Leo's talk very loud. Leos hate to compete, mainly because they are having too good a time and prefer doing nothing. It's an automatic "You win, let's party" situation.

Leo's will spend every dime they have and some they don't have (on the old credit cards) to make an impression on this weeks love God or Goddess. In some instances (more than not) the Leo's search for romance and conquering proves very expensive, and very unsatisfying, if it takes place at all! The Leo male will find it amazing that they bring candy, flowers and all the niceties on a date or other informal setting and don't score, or their expectations are shot down, and then the same object of this Leo's affections will go out with the first person who mistreats them (figuratively) and maul them like a tigress making love for the very first time. It just baffles the Leo mind, but still he/she never gives up the pursuit of whatever they are pursuing?

Typical male or female Leo careers can be found in Publishing or TV productions (you know the one, come on up to my office and read a script for me) and writing plays or movies.

Marriage for the Leo male or female is like playing Russian Roulette with a slight twist. In this case, all the chambers have a bullet.

Moon in Virgo:

The Emotions - This is what I really need to be complete.

The Moon in Virgo native suffers from an inferiority complex that overcompensates with a superior intellect resulting in cosmic hogwash.

The Moon in Virgo person has no problem explaining to you all of your shortcomings, but hasn't the faintest idea what their own problem is. Here is where my favorite expression comes in: "When you argue with fools, you get FOOLISHNESS". The Moon in Virgo person places themselves into a position of straightening out all the things wrong in the world, while swimming in a cesspool the size of The Dead Sea. They seem to enjoy it, so don't mess with perfection.

Health problems for the Moon in Virgo native include indigestion (from trying to perfect the outside world) and nerves (from failing to perfect the outside world). What a prize winning combination. Stop criticizing people Moon in Virgo people, its annoying, and you sound like an idiot when you do it, and last but not least, criticize yourself first, and perfect your world first, and everything else will fall into proper order!

Moon in Virgo people cautiously select a lover after running a computer search of their family tree to see what afflictions they may have to deal with, and then have a medicine cabinet full of antidotes and vitamins, minerals, lots and lots of laxatives and plastic gloves in every size and variety to make an evening of love and romance very special, and antiseptic. This spawns a new era in safe sex for the partners of the Moon in Virgo people, simply stated it implies that if I have to go through all of this trouble to have sex, I would rather not have it at all. Perhaps that is the idea in the first place! Ya think?

Expect Moon in Virgo people to have the dinner table cleaned, and dishes washed, as soon as your fork hits the plate, before or after attempting to eat. There is nothing quite like sitting down to the dinner table in surgical garb, plastic gloves and a hair net, to create just the right atmosphere. The adventure of it baffles some, and repulses many.

Mercury in Virgo:

Mercury represents the thought process and what the mind sends to the body. Mercury rules how we communicate, what we talk about, and what we think about. Bearing that in mind, here is what they are apt to think and talk about.

Out of the mouths of babes, usually comes Yuck! This is the positive side of Mercury in Virgo.

These people have very stable minds and a strong capacity for common sense. I'll bet they have loads of great recipes filed away in that computer they call a mind. These people are the crazoids who are intolerant of others stupidity? It is what they fear most within themselves!

No one can possibly live up to the love fantasy they have created, complete with surgical tools, disinfectant and scuba gear. Love toys include wonder jelly, a probe (with a light on the tip of it), a surgical table with stirrups and anesthesia, lots of plastic gloves and other plastic appliances, condoms without holes in them, and lots of gauze. Who knows what the gauze is for, and who cares!

Yes, people do have to get undressed to have sex. I didn't invent it, it's just one of those things that you have to do. It's a whole concept.

Venus in Leo:

Venus defined is: Romance, the action that brings satisfaction. Food, flowers, little chubby people shooting arrows, fertility, and lots of groveling. Here is how the art of love is interpreted by this placement of Venus:

This sign has the emotional response of a wall switch and just as exciting. They can be compassionate

and demonstrative when they want to be, and calculating sometimes in what they wish to acquire.

The woman of the species must be admired, cherished, and complimented on every aspect of her being, and then some.

Men of the species usually lay enough compliments on you to make you barf and feel good about it afterwards. Love that satisfies the ego side of the self belongs to Venus in Leo.

People with this placement are demonstrative and will probably try to seduce you while acting out Romeo & Juliet, or some other kinky invention or intention.

Excitement is the key for these people. Have you ever tried making love while hand gliding or swinging from a chandelier. The more expensive display these people can put on to get you in the mood, the better and it seems the head waiter always knows these people, whether they have been in the restaurant before or not.

Mars in Taurus:

Mars defined: "Its get down and dirty time". Raw passions unleashed upon suspecting and non suspecting persons. Actions desiring prompt and equal reactions of any kind. To get very specific, this is how this great bundle of energy is used in the personal natal chart. This is how that energy interacts with their surroundings.

This is the placement of the person who will do anything for money. I would never suggest that this person would prostitute themselves for money! Well, alright I would! A word of advice, a person with this placement is as possessive as a gorilla with a banana and just as resentful and jealous if you get it away from them.

A Taurus in heat has all the grace of a Brahma bull trying to freight train a Rodeo Clown, and with just about the same results. There they are, lying flat and looking straight up with no idea who, or what you are, much less where!

You can tell a sexually frustrated Taurus very easily. You will find them in the kitchen cooking, EVERYTHING! When this sign releases their love making passion, the results are similar to having a building drop on you, a very large building. This is to say that when they give themselves, they give themselves completely. Who wants complete, instead save some for a rainy day!

If this native knows they can get a great deal by doing a slightly naughty favor, expect a fantastic reaction to your proposition. Just make sure that you understand who owns what in the long run.
