INTRODUCTION

Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Sagittarius Rising:

There is a distinct part of your outer personality that expresses itself very much like a Sagittarius. You are adventurous, future-oriented and you speak the truth regardless of what others would rather hear.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Sagittarius--broadened horizons--will be integrated into almost every area of life in some way.

Jupiter is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Jupiter.

Neptune in soft aspect to Asc.:

You have an instinctive talent for sensing what others expect from you and then giving it to them. However, it's easy for the real you to get lost in the process. Other people detect this on unspoken levels, and wonder why they have a difficult time figuring out who you really are. Perhaps you don't want them to figure you out, or maybe you wish someone would, and then tell you!

Your outlook on life is utopian and romanticized. Some kind of artistic ability may be present, but you'll have to motivate yourself in order to make your visions into

reality.

You're a dreamer who only wants to see the best in others. The truth is, you can perceive the highest potential in others even if they don't live up to it.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Aquarius:

Unconventional and freedom loving, you are an individual in the truest sense. You have strong opinions which you will hold onto adamantly. Because of this, others sometimes get the impression that you are quite stubborn and headstrong.

Even so, you are friendly and sociable, and many Aquarians are drawn to group situations. You might be someone who prefers many acquaintances rather than a few close friends.

This trait can make you seem somewhat cool and a bit detached. Aquarius is a very independent sign and there is a part of you that wants to be sure that your personal freedom is preserved.

You may be strongly attracted to anything that upsets the status quo. You have the heart of a revolutionary even though you may not express it with obvious outward behavior.

You have a definite intellectual bent and much of your thinking embraces ideas that are ahead of the times. You're inventive and progressive. When the Aquarian traits are especially strong you may even have a desire to change the world and make it a better place.

Sun in 2nd house:

Personal fulfillment in life is reinforced by wise handling of your financial affairs and creating your own sources of income. You will learn that personal liberty is enhanced by a stable flow of money. Your self worth is connected to material success and you enjoy being generous. You must watch a tendency to create your own financial stress due to extravagant spending habits.

There is a side to you that is resistant to change, preferring the familiarity of your

comfort zone.

You can be fairly stubborn and hard to budge until you're good and ready. Even though security is important-you also value the simple pleasures of life.

Venus Conjunct or in hard aspect to Sun:

Personal goals in life can be boosted by your ability to use your charm and powers of persuasion. Your instinctive talent for gaining attention, even being a bit flamboyant when the occasion calls for it, encourages other people to give you what you want.

Saturn Conjunct or in hard aspect to Sun:

You'll learn that determination and perseverance not only bring eventual success, these traits also forge a solid character that will see you through times that would make others give up. The key is to not allow pessimism or obstacles to ever get the upper hand.

Take some time out to pursue the lighter side of life. Cultivate faith and hope.

Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Sagittarius:

You have an emotional need for a certain amount of freedom. You may also find that from time to time you need to expand your boundaries. This can take the form of travel, spending some time in the great outdoors, or even exercising your mental muscles with new ideas and philosophies. The shifting lunar phases acting on the sign of freedom and adventure can create inner feelings of restlessness that can manifest as making you feel somewhat "scattered."

Your emotions can be quite exaggerated. This means that when you are happy, you're very happy, and when you are depressed, you're really depressed. However, a fundamental leaning toward optimism gives you the ability to bounce back from emotionally down times. You will probably find when you are feeling the blues that getting yourself into some new scenery will do wonders for restoring your outlook on life.

Moon in 11th house:

You need groups of people and the support that friends and acquaintances offer. At the same time, you have a need to maintain an emotional distance so that your independence is kept intact, as there is a natural inclination toward yielding to the desires of the "group mind." Group associations often lack permanence depending upon how strong your individual desire for freedom is.

Women in general may have some important bearing on the realization of your hopes and wishes. Whether this influence manifests for good or ill remains to be seen.

Personal life aspirations and lofty ideals are subject to waxing and waning enthusiasm on your part. Try giving yourself little pep talks when you're getting off track.

Chapter 4: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Aquarius:

This placement of Mercury makes you bright, intuitive and able to understand unusual ideas and concepts. While open to new ideas, you are not likely to change your own opinion readily without careful consideration. You are an original thinker with an inventive and resourceful mind. You avoid traditional viewpoints and in the extreme may develop a reputation for eccentricity. You may even enjoy shocking others just for the fun of it.

Mercury in Aquarius endows you with an excellent memory and can make you quite talkative. Your intellectual abilities make you an interesting conversationalist. Astrology and/or other occult disciplines may stimulate your curiosity and appeal to your need to look beyond more traditional sentiments.

Mercury in 2nd house:

You can use the power of words to boost your money supply. You could earn a living communicating if you wanted to.

You have the ability to be quite shrewd when it comes to financial concerns and much of your thinking and communicating is geared toward financial interests.

It's hard for you to change your opinions once formed.

Mars Conjunct or in hard aspect to Mercury:

If you don't make a habit of second guessing yourself, this aspect can boost your intuition if you're willing to trust it.

You are challenged to use the power of communication to enhance, rather than detract from your own best interest.

Jupiter in soft aspect to Mercury:

Open minded and tolerant, you express a wonderful curiosity about life. You have the ability to express philosophical ideas and you can give abstract concepts shape through the use of language (not an easy task for others).

Your sense of humor can help lighten up dark moments. You like to talk and you can advance yourself using your verbal skills. Teaching might appeal to you.

Pluto Conjunct or in hard aspect to Mercury:

Try not to resist life experiences that force you to completely change your thinking. At some point in life you are destined to drastically transform your mental approach and the way you use the power of words, especially the spoken word. You have the power to either destroy or ultimately heal yourself and/or others, depending on your choice of words and your thought forms.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Aquarius:

You are friendly and cooperative by nature, but you may appear somewhat aloof and detached in the eyes of others due to the highly independent spirit of Aquarius. You are quite attached to your freedom and even though you can be as loyal as anyone, you must maintain a certain amount of autonomy in relationships. In general, your friendships may include many

people versus single, intense partnerships. This placement of Venus can bring sudden and unexpected attractions that sometimes end as suddenly as they begin. Ideally your partner is a friend as well as a lover and will understand that your need for independence doesn't mean that you're not interested in him or her.

You function well in groups and may be especially attracted to groups which promote a common cause. Aquarius is the sign of humanitarian interests and wide-scale change. You live by your own code (which may be quite unique) regardless of what society thinks.

Your money may be subject to circumstances beyond your control or you could have more than your share of unexpected financial situations to deal with.

Venus in 2nd house:

Financial security and enjoyment of the good things in life are important to you. You can be a lavish spender because money matters tend to work themselves out in your favor in the end.

The ability to relate harmoniously with other people will enhance your money supply.

Venus here helps to grant more stability in close relationships and affectionate attachments.

You may have some inherited artistic/musical ability.

Saturn Conjunct or in hard aspect to Venus:

You take relationships seriously and you may have had your share of disappointments by bonding with those who don't display the same level of commitment. Because of this, you might become pessimistic and overly cautious which can then create self fulfilling prophecies. Associations may then be sought out for reasons of self preservation and status in an attempt to avoid emotional injury.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Scorpio:

Mars has a lot of power in the sign Scorpio. This is because

Mars is the ancient ruler of this sign. The planet of survival in the sign which represents intensity of purpose combine to make those with this placement very forceful people who are capable of relentless bravery and extreme expression of their will towards an end. Intensely passionate and sometimes intensely jealous, you certainly cannot be accused of being wishy-washy in any way, shape or form.

For some Mars in Scorpio people, domination is as natural as breathing. You can be quite vindictive when crossed and if you feel that your survival is threatened in any way, you make a potentially dangerous enemy. You possess a natural ability to understand deep emotions and you can see through the hidden motivations of others.

This position supports the psychiatrist / surgeon / military person / banker.

Mars in 11th house:

You're willing to expend a lot of effort and energy in group affiliated activities. This refers mainly to groups of people who join forces to work toward a common cause. Many times this includes organizations whose goals are geared toward wide-scale social change.

You actively seek out friends and acquaintances, but betrayals of trust may be encountered with Mars here. When in doubt, keeping your own counsel and trusting your own intuition will allow you to avoid disappointments.

Most likely you are more action oriented than dream oriented when it comes to the attainment of your personal hopes and wishes.

Uranus in soft aspect to Mars:

Your real "genius" comes forth when you're involved in a crisis, or whenever your immediate survival is at stake.

A sense of adventure and the willingness to experiment with new ideas adds excitement to your life.

Caution is advised as this aspect can accelerate your activity and cause accidents.

Pluto Conjunct or in hard aspect to Mars:

No one can ever accuse you of being wishy-washy or half hearted. Intensity of purpose and fearlessness mark your approach to going after what you want. If you feel threatened, you can be ruthless or even downright cruel. You are extremely goal oriented and if you use this aspect with wisdom, then nothing can stop you from achieving almost anything you wish.

Get in touch with and cultivate your compassionate side.

Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Gemini:

Benefits come through intellectual expansion, expressing yourself and making your ideas known. Writing and journalism can also become satisfactory avenues of expression for you. Your mind is exceptionally curious and you are able to converse with almost anyone about anything. There often doesn't seem to be enough time in the day to pursue all of your varied interests.

Staying in one place long enough to finish a particular project requires conscious self discipline because your mind tends to become bored easily and it's always urging you to move on to something new.

You have many ideas and you're more than willing to share them with others as long as they're willing to listen to you.

Jupiter in 6th house:

You probably enjoy the work you do and you may even be willing to cheerfully put in overtime. Whatever the case may be, you will always be able to find employment.

You'll benefit by helping others through charitable service in your spare time.

This placement is beneficial for matters pertaining to health, however, overindulgence in anything will eventually catch up with you. Moderation is the key.

You may have to watch a tendency to be overly concerned with minute details.

Jupiter is Retrograde

Your abundance is felt on the inside. You can feel satisfied with less than other people, which can be quite admirable in a way. The result is, it's easy for you to settle for crumbs when you'd really like more out of life. Take an honest inner inventory of what you believe you deserve, because that's what you'll get. Affirm to yourself that you can have what you want because you're worth it.

Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel

inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Scorpio:

You know how to manifest your deepest desires via unyielding force of intent. You can easily sense what lies beneath the surface of other people.

A major life lesson may include experiencing a deeply intimate relationship with another person. Other people's money (usually your spouse) may also present issues to deal with.

When you feel that you have been crossed, you often experience a nagging desire to get even. Even if the getting even takes the form of simply living well, you will be vindicated one way or another.

This can be a lifetime of either tremendous healing or massive upheavals depending on the choices you make. The ego force is quite substantial and you can utilize this force as a driving motivation for success. Patience with the foibles of others must be consciously brought forth.

Reminder: at some point in life you will be called upon to make a decision on the side of forgiveness and healing in order to elevate yourself.

Saturn in 10th house:

This is a lifetime for you to learn to persevere through obstacles in order to attain career goals. The more that you are willing to accept responsibility for yourself and others, the more the universe will support your ambitions.

It's important to integrate mercy, humility and integrity into the achievement of goals with Saturn here.

You'll probably be required to contend with the heavy hand of authority figures until you learn to confront them and find out that you can survive after all.

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Cancer:

Uranus was in the sign of Cancer for approximately seven years. This means that you are part of a large group of people

who will share many of the same fundamental characteristics such as the ability to be imaginative and being emotionally unpredictable. For many there is an unusual approach to home, family and the meaning of patriotism.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 7th house:

You can be a genius when it comes to partnerships. You have to be because you tend to attract partners who are quite independent, perhaps even a bit rebellious.

Close commitments may seem to be under the influence of many circumstances beyond your control. You or the other person might have some unusual ideas about marriage.

Sudden attractions can tempt you to make legal commitments prematurely. Either you or your partner requires a certain amount of independence. Possessiveness can yield disastrous results.

Uranus is Retrograde

You can be a real character inside. Few people get this impression right away. You'd rather play the role of conformist until you feel comfortable enough to let your hair down. Then everyone is either shocked or pleasantly surprised depending on whom you hang out with.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Libra:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: a breakdown of boundaries surrounding the approach to marriage and partnerships and high expectations of other people which often result in

disappointment when reality comes to visit.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 10th house:

You'll experience career confusion at some point in life. You may have some doubts about your ability to handle heavy responsibilities and this placement can water down the drive for success, at least by traditional standards. Other chart factors can modify this tendency.

You may be attracted to a career in the arts. Whatever you choose to do, make sure that you present a clear picture of yourself and your abilities to superiors.

In case your relationship with Dad was less than ideal, do yourself a favor by forgiving and moving on.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Neptune is Retrograde

Ever heard the term "suffer in silence?" Does it apply to you? Ask yourself why you find it so difficult to share your real pain with others. Someone made you feel guilty a long time ago and now a part of you lives as though you're trying to make up for whatever the original so-called transgression was. You want to heal the whole world. Start with forgiving yourself in no uncertain terms. Unload other people's shabby misconceptions which have been foisted upon you and find the tranquility you deserve.

Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life

that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Leo:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Leo you're part of the generation that can experience radical changes in leisure time activities and its own children. On a personal level, those with Pluto in Leo tend to be proud, into hero worship and self centered in the sense of making their personal desires all important.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

Pluto in 8th house:

You are nothing short of a deep and complex individual. If you ever take an interest in matters pertaining to the occult, then you could become an excellent magician in the sense of manipulating the forces that rule the physical plane. Your understanding of how to use your personal power to direct situations to your advantage can be a formidable force.

On another level, you may experience some major changes connected to other people's money. When handling taxes, inheritance, or large sums of money, use caution as this placement calls for everything to be handled completely above board.

Pluto is Retrograde

Some people go through massive changes that are clearly shown in outer circumstances. You go through tremendous inner upheavals followed by rejuvenation on the inside. You are one strong individual. You have depth of character and a lot of class. You've earned it. You're like tempered glass. You might crack, but you won't shatter.

Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the

Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Capricorn:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Commitment, perseverance and the steady rise toward some kind of solid achievement are encouraged. Learn to keep going when the going gets tough. Lay solid foundations for your goals.

You can focus your energies without waste and efficiency can become your key to success. Keep your eye on the target.

Certain life events will show you the value of taking responsibility for other people, especially without being asked. Successful outcomes are reinforced by an unwavering sense of duty toward your obligations.

North Node in 1st house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: projecting your personality; going after what you want and taking care of your own best interest; polishing up your self image and feeling confident with that image; putting yourself "out there" in no uncertain terms.

MC in soft aspect to Mercury:

The boss wants to hear what you have to say. You're lucky because you can get those in positions of authority to listen to your ideas. Communication skills will support your career ambitions.

Variety is the key to your career, either a variety of careers, or perhaps a medley of duties to perform within a single career. Reporter, writer, accountant, educator, researcher, scientist, salesperson. Wherever the transmission of information is necessary, therein lies a career possibility for you.

MC in soft aspect to Jupiter:

When it comes to your career, you have high ambitions. The universe is handing

you a bit of pure luck in this department. Your ethics are usually honorable and you have a somewhat conservative outlook toward upholding traditional codes of behavior.

Career choices may include teaching, especially at higher levels, law, spiritual counseling, publishing, or working in the travel industry, as a librarian, or in sports related fields.

MC Conjunct or in hard aspect to Uranus:

You can be an extremely efficient worker. You have an aptitude for finding shortcuts and this inborn talent comes in very handily in the career department.

Your innermost self rebels at having to put up with a steady dose of being told what and how to do something. This is because you have an inventive mind that can zero in on a more effective way to get the job done. Alas, there are too many who would rather stick with the tried and true. These experiences can encourage you to find a way to be your own boss. You may be drawn to unusual career choices or those which allow you to express your unique ideas in some capacity.

Here are some career possibilities to consider: broadcaster, astrologer, high tech communications worker, computer whiz, airline pilot or airline worker, inventor, electrician, social activist, consultant, humanitarian, and anything that falls into the New Age category.

Four or more Air Signs

Logical and analytical, you will learn all about using the powers of the mind. You respect mental accomplishment in yourself and others, and you may end up being considered an intellectual by your peers.

If something doesn't make sense, you find it well nigh impossible to throw yourself wholeheartedly into it. Emotional content carries little weight in your important decision making processes.

Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

Ruler of 1st house in 6th:

This chart factor indicates that you have a strong work ethic and you probably identify yourself by the work you are capable of doing.

Health is important to you and very often your outlook on life affects your well-being. Avoid getting caught up in negative downward spirals.

You are the type of person who can reap personal benefits from staying active and feeling useful. Your own cares and concerns will melt away when you find a way to become involved in helping others.

Ruler of 2nd house in 7th:

Your chart indicates that there is a definite connection between your own resources and the close partnerships you form with other people. What you have may rest on your ability to balance giving and receiving in partnerships of any kind, even business relationships.

It's likely that you place a very high value on your committed relationships, whether with your spouse or best friends and you generally make an extremely loyal partner.

Ruler of 3rd house in 10th:

Your thinking is geared towards your career goals and chances are your ideas may come before the public in some way. You speak with authority and you also want your ideas to come to the attention of your boss or other authority figures. Your own ability to communicate or anything else involving communications could play an important role in your career.

A sibling or near relative can have a significant influence on your career or they themselves may come before the public in some manner.

Ruler of 4th house in 11th:

Your home base may be subject to a lot of changing circumstances beyond your control or it might just be that your home is unusual in some way.

Your upbringing may have contributed to a desire for radical social change or perhaps your security needs are fulfilled through belonging to clubs and organizations or otherwise interacting with people in a common cause.

Ruler of 5th house in 2nd:

Financial speculation can increase your income as well as make the most of your innate creative abilities. If you are a highly creative person then most likely these are inherited talents.

You may have very strong attachments to your children and your children enhance your feelings of self worth.

Recreational activities and creative projects are part of your value system.

Ruler of 6th house in 2nd:

The health related fields may increase your income. You worry too much about money and possessions, although you may have good powers of discrimination when it comes to handling money. You're willing to work diligently for your money.

Ruler of 7th house in 2nd:

Your spouse may contribute to your income or you may work closely together to increase your mutual resources.

You'll find that your spouse or your closest friends often share the same value system.

Partnerships or any other significant one-on-one relationships can boost your money supply and as a result, the giving and receiving principle will come to the fore.

Ruler of 8th house in 2nd:

Other people's money or resources can strengthen your own financial picture. Other people's values can influence your own value system. The field of metaphysics could be a source of income for you.

Deep intimate bonding with another person is something you feel strongly about. You tend to bond with others emotionally as well as sexually and it's difficult for you to separate these feelings.

Ruler of 9th house in 2nd:

Higher education can have an important influence on your money supply and/or your feelings of self worth. Travel, law, publishing, and sports related fields may affect your income.

You have faith in your ability to earn a living, and what you believe you deserve directly influences what you have.

Ruler of 10th house in 2nd:

Your career greatly contributes to your feelings of self worth and you want to be responsible for your own income.

Your chosen profession (not the work you do to survive) will be financially lucrative. If you're making less than you'd like, become a specialist at something that appeals to you.

Being your own boss gives you a stronger sense of personal liberty.

Ruler of 11th house in 8th:

Your hopes and wishes can change completely at some point in your life. You may abandon your goals in the blink of an eye and decide to go after something totally different.

Your involvement with a particular organization and your support of its aims could result in a total lifestyle change for you. Or, you could end up experiencing a complete change of attitude towards it.

Ruler of 12th house in 6th:

Past lives have a strong influence on your family karma. You could experience confusion and doubt about the work you do or your family karma. You will have to work on forgiveness regarding this in order to elevate yourself.

You can tap the powers of your subconscious mind to influence your health and well-being. Visualizing a healthy body as you drop off to sleep will work wonders on your immune system as well as your body's ability to heal itself.

Excessive worry and concern over small details can work against you. Inner peace comes by doing your best and letting go of ideas of absolute perfection.
