Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material

plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

## Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

#### *Libra Rising:*

There is a distinct part of your outer personality that expresses itself very much like a Libra. You are charming, diplomatic, prefer cooperation to competition and people know you for your easy-going manner.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Libra--relating to others--will be integrated into almost every area of life in some way.

Venus is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Venus.

#### *Moon Conjoint or in hard aspect to Asc.:*

Depending on your mood on any given day, you can be super-sensitive and you'll sometimes over-react with the least amount of provocation. Mostly though, others often sense your sympathetic nature and are instinctively drawn to the nurturing side of your personality.

You enjoy the role of the understanding caretaker and yet, you often wonder when it will be your turn to be the one who is nurtured unconditionally.

### *Venus Conjunct or in hard aspect to Asc.:*

You are a naturally attractive person and other people find it easy to relate to you. The image you project is very important to you and you will usually invest whatever time and effort you feel necessary on grooming, the right clothes, etc. You do this because you may feel more than just a hint of chronic dissatisfaction with yourself. Even at your absolute best, you still feel as though there's room for improvement.

### *Mars Conjunct or in hard aspect to Asc.:*

You meet challenges head on and others may see you as a "hard driver." Your personality projects a strong spirit and a lot of spunk.

You rarely back down in competitive situations and as a result, you've experienced your share of butting heads, especially with other so-called strong personalities.

### *Saturn Conjunct or in hard aspect to Asc.:*

Your demeanor gives other people the impression that you are serious, even though you may have a well-developed sense of humor which becomes more apparent as they get to know you.

This aspect can function in one of two ways. You may become too easily discouraged when disappointments happen; on the other hand, you may decide to use the persevering element of Saturn's energy and become someone who makes lemonade out of life's lemons as many successful people have. The choice is yours.

### *Pluto Conjunct or in hard aspect to Asc.:*

You have a tremendous amount of power at your command, and even you may not realize how easily others are affected by your "force field." If you seem to invite more than your share of conflicts, then perhaps you can choose to develop an awareness of your approach and tone it down a bit.

You're definitely the kind of person people want on their team when winning is the objective. You won't, don't, can't quit until every option has been run through.

You can become a potent agent for healing and forgiveness. Can you start with yourself? Regeneration is your gift.

## **Chapter 2: The Sun**

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

### *Sun in Libra:*

Cooperative, diplomatic and refined, you will usually avoid conflict whenever possible. The principle of Libra embraces consideration of the other person, whether spouse, close friend or business associate. You are able to see both sides of a situation which makes this a helpful placement for lawyers and marriage counselors, for example.

Other people will often try to take advantage of this apparent niceness. However, when someone makes the mistake of trying to push you too far you will definitely balance the books. This is your instinctive sense of justice and fair play coming to the fore.

When the natural Libran desire to consider all viewpoints and possibilities of a situation is carried too far, indecisiveness and fence-straddling can become obstacles to overcome. This could lead to an eventual resentment of other people, who do not appreciate your efforts to bend over backwards to accommodate

them. The challenge for Libras is to balance the principle of cooperation without losing themselves in the process.

You have a deep admiration for beauty and even if you are not artistic yourself you will still find some way to enhance your environment regardless of how tight your finances are. When money is abundant you can be quite extravagant, lavish and even self-indulgent.

#### *Sun in 1st house:*

Personal fulfillment in life is reinforced by projecting your personality. You are self confident and you basically have a positive outlook on life. Other people are attracted to your vitality, enthusiasm and usually sunny personality. There is a powerful drive to achieve personal goals along with the courage to initiate whatever action is necessary to bring your desires to fruition.

There is a side to you that is active, aggressive and direct. You have strong drives and you can hold your own in competitive situations.

#### *Venus Conjunct or in hard aspect to Sun:*

Personal goals in life can be boosted by your ability to use your charm and powers of persuasion. Your instinctive talent for gaining attention, even being a bit flamboyant when the occasion calls for it, encourages other people to give you what you want.

#### *Mars Conjunct or in hard aspect to Sun:*

You have a powerful instinct when it comes down to survival of the fittest and you are a force to be reckoned with whenever issues of survival are at stake. Watch the tendency to argue and compete with others just for the sake of it. Otherwise you'll alienate those who might have otherwise supported you.

#### *Saturn Conjunct or in hard aspect to Sun:*

You'll learn that determination and perseverance not only bring eventual success, these traits also forge a solid character that will see you through times that would make others give up. The key is to not allow pessimism or obstacles to ever get the upper hand.

Take some time out to pursue the lighter side of life. Cultivate faith and hope.

#### *Uranus Conjunct or in hard aspect to Sun:*

You experience some inner conflicts whenever you try to integrate your unique individualism with the other part of you that feels it must gain the approval of others.

You have a talent for shaking up other people's comfort zones. The assignment that comes with this aspect is to express your need for freedom and originality without unduly alienating those who would help further your aims.

## **Chapter 3: The Moon**

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

#### *Moon in Libra:*

You have a need for harmony and peace in your environment. You are a natural diplomat who will usually go to great lengths to avoid conflicts. However, when someone pushes you beyond your limits, diplomacy

will go flying out the window and those who are on the receiving end of your backlash are usually surprised to find out that one who can be so easy going can also be a force to be reckoned with. Because of the effect of the lunar cycles on human emotions, this placement makes those with the Moon in Libra especially capable of swinging to emotional extremes.

People are usually important to you and you actually have a need for approval from others. When you are feeling down you need someone close you can relate to on a one-to-one basis, whether a partner or a best friend.

#### *Moon in 12th house:*

You have a need to spend some time alone. Periodic withdrawal from the "real world" allows you to level out emotionally and rejuvenate yourself psychologically. Often you are out of touch with your own emotions and the universe seems to keep handing you difficult situations in order to stimulate emotional recognition.

There was something about your upbringing that you don't see clearly. Perhaps you don't have a clear view of either your childhood or both of your parents, but especially your mother.

You are sensitive, intuitive and sometimes restless. You can gain more life satisfaction by helping those who cannot help themselves via a career choice or volunteer work.

Feelings of inertia can stem from buried psychological distress (often former lifetime issues) that drain energy levels and suppress motivation. If this is the case, you may choose to do some past life regression in order to bring old bug-a-boos into the open for positive release and healing.

#### *Venus Conjunct or in hard aspect to Moon:*

Other people find you to be a soft touch. There is a gullible side to you that will toughen up as you mature.

You also like to indulge yourself in immediate gratification and to heck with disagreeable duties; they can wait 'til later.

#### *Neptune in soft aspect to Moon:*

You are sensitive, empathetic, and impressionable. Your imagination is pronounced.

Your perception of the world around you is based on your ability to instinctively pick up the subtle vibrations in the environment that other people seem oblivious to. Many times you are led through life on a kind of invisible radar that puts you in the just the right place at the right time.

#### *Pluto Conjunct or in hard aspect to Moon:*

Finding expression for your deepest emotions can be extremely difficult for you. Often you will simply choose to repress them until the unresolved issues surface again for acceptance and release. You'll benefit yourself greatly by finding an acceptable way to release emotional tension.

You can drastically change your life by doing whatever it takes to heal, forgive, and release any old childhood issues.

## **Chapter 4: Mercury**

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

#### *Mercury in Scorpio:*

You are insightful, intuitive and your communications are intensely expressive. Scorpio doesn't want to budge and you often approach life with a single-minded enthusiasm that others often find somewhat exasperating. You simply like to win, that's all.

Your mind has a probing and penetrating quality that allows you to detect things that are not readily apparent to other people. You know how to keep secrets as well as dig them out of others when necessary.

This makes you a natural psychologist, as you have an instinctive understanding of that which lies below the surface of other people's appearances.

You prefer to learn through direct experience rather than books and lectures. You have good concentration and the ability to totally immerse yourself in whatever you undertake.

#### *Mercury in 1st house:*

Most likely you are quite a talker. You like talking about yourself. That's O.K. People are attracted to your curious light-hearted demeanor and the way you can easily keep the conversation going. You enjoy gathering and sharing information. You can use the power of words to attract much of what you want out of life.

You strike others as youthful either in appearance or outlook.

#### *Jupiter in soft aspect to Mercury:*

Open minded and tolerant, you express a wonderful curiosity about life. You have the ability to express philosophical ideas and you can give abstract concepts shape through the use of language (not an easy task for others).

Your sense of humor can help lighten up dark moments. You like to talk and you can advance yourself using your verbal skills. Teaching might appeal to you.

#### *Mercury is Retrograde*

Lots of conversations are carried on inside your own head. With Mercury retrograde, you rarely blurt things out without thinking them over first. As a result, you may often find it easier to express yourself in writing. If so inclined, you'd make an excellent writer.

## **Chapter 5: Venus**

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

#### *Venus in Libra:*

You are charming, approachable and normally very people oriented. You want to please others and you will avoid conflict whenever you can.

You seek perfection in a partner and you may find yourself in numerous relationships as long as the search is on. This is one area where the reputation for fickleness originates. You may have a difficult time making up your mind anyway, as you possess an inborn desire to consider all viewpoints and possibilities before coming to a final conclusion about anything. The foregoing trait can also easily derail you from your original goals.

You have a definite taste for the good things in life and as far as you're concerned you might as well have a partner who not only appreciates the same things, but can also help you attain them.

Art, music and beauty in any form brings you great satisfaction, and you will always find a way to surround yourself with objects of beauty.

#### *Venus in 1st house:*

Venus here confers a certain magnetism. Something about your image is attractive to other people and you can use your personality to get more of what you want out of life.

The impression you make on other people is important to you and you put forth the extra effort to present a combination of style and charm.

*Mars Conjunct or in hard aspect to Venus:*

Something about your appearance has a magnetic quality that attracts the attention of other people.

You'll get more of what you really want if you aren't afraid of letting others know exactly what it is that you desire.

*Saturn Conjunct or in hard aspect to Venus:*

You take relationships seriously and you may have had your share of disappointments by bonding with those who don't display the same level of commitment. Because of this, you might become pessimistic and overly cautious which can then create self fulfilling prophecies. Associations may then be sought out for reasons of self preservation and status in an attempt to avoid emotional injury.

## Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

*Mars in Libra:*

You are rational, adaptable and drawn toward other people. Mainly, you enjoy social contacts because they satisfy your need for mental stimulation.

You usually have high standards of conduct and behavior. When you feel strongly justified about an end you are capable of going to extremes to see it through. However, the planet of action and aggression in the sign of diplomacy and cooperation can also combine to cause you to feel somewhat apathetic about life at times.

The Libran desire for justice, harmony and perfection are strong in you, and when others don't follow this same line you can be quite demanding. You generally dislike open conflict, instead preferring to use more subtle techniques to get things moving your way. However, you will eventually succeed.

*Mars in 1st house:*

You're active, impulsive, and you have a strong sense of survival. Hot-blooded and hot-headed, you would do well to practice looking before you leap at least some of the time as this placement can make you a bit more accident prone than most.

Even if you don't actively pursue competitive situations, this placement reinforces the ability to keep your head above water whenever "it's every man for himself."

The general physical constitution is vital and robust.

*Saturn Conjunct or in hard aspect to Mars:*

You can be fairly hard on yourself and you may find that you must work harder and with more dedication in order to accomplish your many of your goals.

Impulses are controlled, which can be a blessing in a way because you will consider the consequences before acting. However, take care not to lose all sense of natural spontaneity and enthusiasm.

*Uranus Conjunct or in hard aspect to Mars:*

You don't usually like to take advice and you can't stand to have your freedom imposed upon. You're something of a rebel at heart and you crave adventure and new experiences. Your temper can be explosive.

This aspect can make you accident prone due to accelerated actions and a lack of carefulness. Patience will have to come from other chart factors. A sense of caution needs to be consciously developed in order to

avoid mishaps.

Crisis situations stimulate your survival instincts and you can do some of your finest work under the influence of a pressing deadline.

## Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

### *Jupiter in Pisces:*

This placement of Jupiter endows you with a powerful imagination. You will reap whatever you believe and it is important for you to make a conscious effort to overcome any inner voices of self doubt.

You have a high level of compassion for your fellow man. Without even realizing it, you absorb the energies of other people and it is important for you to avoid becoming too enmeshed in attempting to fix people's problems. Find a balance between utilizing your instinctive desire to help others and knowing when and where to draw the line.

The planet of freedom in the sign of no boundaries can at times combine to create chronic feelings of restlessness along with highly emotional responses, thereby opening the door for addictive behaviors in order to escape reality. You can help yourself by developing a deeper spiritual awareness. Positive metaphysical practices are beneficial for you. For example, meditation could develop the potential for attaining a kind of cosmic consciousness if you choose that path.

Spending some time alone meditating and creating positive visualizations will counteract negativity and strengthen your ability to make your dreams a reality.

### *Jupiter in 6th house:*

You probably enjoy the work you do and you may even be willing to cheerfully put in overtime. Whatever the case may be, you will always be able to find employment.

You'll benefit by helping others through charitable service in your spare time.

This placement is beneficial for matters pertaining to health, however, overindulgence in anything will eventually catch up with you. Moderation is the key.

You may have to watch a tendency to be overly concerned with minute details.

### *Neptune Conjunct or in hard aspect to Jupiter:*

Sentimental and idealistic, you often find the reality of day to day struggles difficult to bear. The best way to use this aspect is to stay tuned into universal forces that promote faith and acknowledgment of a higher power in your life. You have the ability to move beyond simple faith into the realm of true enlightenment. This a lifetime in which the stars lend encouragement where spiritual pursuits are concerned. Take some classes in meditation and learn some techniques for grounding yourself on a daily basis.

Practice dealing with mundane responsibilities while they're still molehills instead of putting them off until they turn into mountains.

Allow the imperfections of the world to stimulate practical actions for improvement. You can be a powerful force for goodness. Gurus may come and go, but remember to make your own intuition the bottom line; it will not fail you.

### *Jupiter is Retrograde*

Your abundance is felt on the inside. You can feel satisfied with less than other people, which can be quite admirable in a way. The result is, it's easy for you to settle for crumbs when you'd really like more out of life. Take an honest inner inventory of what you believe you deserve, because that's what you'll get. Affirm to yourself that you can have what you want because you're worth it.

## Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

### *Saturn in Cancer:*

You can be quite ambitious where personal security issues are at stake. Your upbringing might have been marked by a sense of melancholy and perhaps disappointments. Even though your parents cared for you, you may have still felt lonely and insecure. Defensiveness and inhibited emotional responses can create their own self fulfilling prophecies. As an adult you are now free to rewrite the script where your home life is concerned. Should you choose to establish your own family life, you will take the responsibility very seriously. You may have to learn that your own personal space can be a haven where happiness and optimism prevail.

Reminder: work on boosting up the importance of your own opinion about yourself rather than holding yourself back because of a need for approval from others, especially your family. Repressed emotions will manifest as stomach problems. Learn some techniques for healthy emotional release.

### *Saturn in 10th house:*

This is a lifetime for you to learn to persevere through obstacles in order to attain career goals. The more that you are willing to accept responsibility for yourself and others, the more the universe will support your ambitions.

It's important to integrate mercy, humility and integrity into the achievement of goals with Saturn here.

You'll probably be required to contend with the heavy hand of authority figures until you learn to confront them and find out that you can survive after all.

## Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

### *Uranus in Libra:*

Uranus was in the sign of Libra for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be cooperative, diplomatic and fair. This placement of Uranus brings an unusual or progressive approach to marriage and partnerships in general.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

### *Uranus in 1st house:*

You can be a genius when it comes to projecting your personality. There is something unusual about your demeanor that makes other people want to pay attention to you. You make it difficult for other people to fit you neatly into a particular category and you like it that way. Keep 'em guessing. You're a free spirit who gets a kick out of doing the unexpected.

## Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

### *Neptune in Sagittarius:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

### *Neptune in 2nd house:*

Do you ever wonder where all your money goes? Is it like magic, always disappearing? More than most you should approach anything that deals with finances with wide-open eyes. You can avoid a lot of financial confusion and doubt by cultivating a more realistic approach toward money. Be on guard for impractical moneymaking schemes. Remember, if it seems too good to be true, it probably is. On the other hand, your creative inspiration can be utilized to make some money.

### *Pluto in soft aspect to Neptune:*

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

## Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

### *Pluto in Libra:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Libra you're part of the generation that can experience radical changes in the marriage code, the justice system, arts and culture, as well as relations with others both here and abroad.

On a personal level, those with Pluto in Libra tend to be adaptable, intellectual, extravagant and concerned

with fairness.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

#### *Pluto in 12th house:*

Deep psychological probing; that's what this Pluto placement encourages. You don't mind being alone with your own thoughts, and you can have some of your finest insights about yourself spending some quiet time in a meditative frame of mind.

You may have strong feelings about helping the underdogs of society, and you can become a wonderful healer. You understand the woes of others and the perception you lend can help others to help themselves. Try to keep one foot inside your own reality. It's easy for you to get emotionally entangled in the unpleasant realities of those you try to help.

One way or another, you'll have to deal with isolation in some form. This is either self-imposed or felt when working with other people who are set apart from society.

## **Chapter 12: Elements, the North Node, and the Midheaven**

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

#### *North Node in Sagittarius:*

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Broaden your horizons. Go ahead and be blindly optimistic. Your faith in the future can see you through difficult times.

Stretch your mental muscles. Take some courses in philosophy. You can develop a talent for understanding abstract concepts.

Boring, stagnating jobs or relationships can suffocate your free spirit. You must grow in this lifetime and a certain amount of freedom and adventure is as necessary for you as the air you breathe.

#### *North Node in 2nd house:*

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: create something of lasting value that you can leave as a legacy for future generations to admire.

Learn how to make your own money. Try to hang onto some of it, and keep your financial affairs straight.

Make the most of your inherited talents. Develop a firm set of values that you can call your own.

#### *MC Conjoint or in hard aspect to Moon:*

Professionally speaking, you'll have to learn to go with the flow, as your main career may lack stability during the first half of your life. You may be a late bloomer where career is concerned, coming into full potential later in life. You can expect a strong female influence around the question of career.

Ideally your career should be one that allows you a certain amount of emotional satisfaction. Real estate, and all options that relate to the domestic scene in general, represent career potentials. Supportive, care taking roles are favored; likewise, those in which there is considerable contact with the public.

*MC in soft aspect to Mercury:*

The boss wants to hear what you have to say. You're lucky because you can get those in positions of authority to listen to your ideas. Communication skills will support your career ambitions.

Variety is the key to your career, either a variety of careers, or perhaps a medley of duties to perform within a single career. Reporter, writer, accountant, educator, researcher, scientist, salesperson. Wherever the transmission of information is necessary, therein lies a career possibility for you.

*MC in soft aspect to Jupiter:*

When it comes to your career, you have high ambitions. The universe is handing you a bit of pure luck in this department. Your ethics are usually honorable and you have a somewhat conservative outlook toward upholding traditional codes of behavior.

Career choices may include teaching, especially at higher levels, law, spiritual counseling, publishing, or working in the travel industry, as a librarian, or in sports related fields.

*MC Conjunct or in hard aspect to Pluto:*

Don't be surprised if you have your share of power struggles with authority figures. This aspect suggests domination and control. You can rise to a position of important influence over the lives of others. All efforts to climb to the top should be kept completely honest and aboveboard.

Consider some of the following career potentials: archaeology, espionage, psychiatry, mortuary science, the secret service, banking, or the medical profession--especially surgery.

*Four or more Air Signs*

Logical and analytical, you will learn all about using the powers of the mind. You respect mental accomplishment in yourself and others, and you may end up being considered an intellectual by your peers.

If something doesn't make sense, you find it well nigh impossible to throw yourself wholeheartedly into it. Emotional content carries little weight in your important decision making processes.

## **Chapter 13: House Rulerships**

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

*Ruler of 1st house in 1st:*

You want to create a distinct first impression on other people and the image you project is very important to you. There may be a strong resemblance to one of your grandparents.

*Ruler of 2nd house in 12th:*
