**\*\*\* Introduction \*\*\***

This Astrological Child Report has been designed as a guide for Young's parents, with a special commitment: to help with Young's growth and cultural upbringing, to emphasize and strengthen his assets, and to alert the parents to mistakes or possible problems that Young could face in his life.

Chapter 1 describes Young the way he really is (position of the Sun), and the way his personality is expressed (Ascendant sign). Chapters 2 and 3 describe the influences linked to his mother and father respectively, which DOES NOT mean a description of their personalities, but the way Young sees them, experiences them, and which characteristics he takes from each one. In the astrological chart of a brother or

sister, the description of parents could be different due to the individual's perspective. Chapter 4 completes the sequence of the description of Young's temperament, focusing his mind, his attitude toward education, and his intellectual capacity.

Chapter 5 describes Young's destiny, his vocation, his profession, and the probability of success in the material world. In order to get an appropriate view of Young's vocational possibilities, it will be necessary to combine what is in this chapter plus what is in Chapter 1 and any other relevant information in the report.

Chapter 6 analyzes the conditions of Young's health; some tendencies or possibilities to physical diseases are mentioned, which DOES NOT mean that Young is going to suffer from them, one by one. It does mean that those are his weak points and he is inclined to those possibilities. As a complement, some recommendations for Young to have better nutrition are mentioned. PLEASE CONSULT A PHYSICIAN REGARDING ANY PHYSICAL PROBLEMS THAT YOUR CHILD MAY HAVE!!! FOLLOW YOUR PHYSICIAN'S ADVICE AND ANY MEDICATION OR THERAPY THAT HE/SHE RECOMMENDS!!! ASTROLOGY SHOULD NEVER BE USED AS A SUBSTITUTE FOR PROFESSIONAL MEDICAL ATTENTION!!!

Finally, Chapter 7 describes the astrological influence of the outer planets which affect all the children who were born in the same period of years, producing common ideas and behaviors and subsequent generational characteristics.

It is probable that you may find some contradictions in the report; this is because some planets may be beneficial in a certain area of life while other planets may be less helpful or even harmful. This means that Young may have both positive and negative experiences in the same area. You need to draw on your intuition and common sense to come to your own conclusions. But remember that every child, no matter the sign he/she was born in, needs LOVE in order to grow up in the right way.

### \*\*\* Chapter 1 \*\*\*

#### **General description of the child: essential nature and personality. Physical body and childhood.**

### *Sun in Aquarius:*

The child of Aquarius is original, rebellious and very special. It is not easy to describe him because he has so many facets. He is jumpy, and always in motion. He will be a rebel from infancy and will not be an obedient child. He is very clever and he learns quickly how things work. He is very curious as well as sociable. He is attracted to the unusual, objects in motion, vivid colors, and anything animated. That is why you have to keep an eye on him when he starts to walk. He is attracted to electronic components, like TV sets, computers, VCRs, audio equipment, etc. and he is always placing his little fingers on the panel where the controls are, driving everybody crazy! It is a very good idea to have computer games at home, because he will enjoy it very much. Remember, if you have any electronic equipment at home, it would be better to show him how to use it, than to forbid him to touch it. When something is interesting for him, he learns with incredible rapidity; sometimes he is a kind of genius. One of his worse problems is being easily bored, so he is always looking for something new. His moods are not very constant, and he can feel up and down on the same day. Though he is a bit unpredictable, he is usually charming and outgoing.

Parents should be cautious when choosing a school for him, because he has a special mind, and it needs constant stimulation. A conservative and traditional education could be catastrophic. He needs to be in touch with modern and futuristic things. His mental vibrations are connected with the future, rather than the past. He is very intelligent but sometimes absent-minded, especially when he is bored at school. His creativity and originality are unbelievable, and it is very important to help him develop these qualities from the beginning. Though he is artistically talented, his creativity is not limited only to this field, and he could also be an inventor. A good gift could be the combination of a set of special pencils and pens and an engineering set, so he can build bridges and towers. He also loves science-fiction, and all things connected with the Universe.

Young's personality includes a combination of a firm practical sense and an unbelievable perception, with a sharp and penetrating logic. His answers will be clear and precise, though at first there will be always "no" for an answer to any order or suggestion. After complaining and thinking about the subject, his final reaction will be reasonable and coherent. He becomes more rebellious and extravagant during adolescence. His parents must be prepared to accept his extravagant hairdos and clothes, his lack of punctuality, as well as his unconventional behavior. Then he will calm down. Remember that it is not a very good idea to attack or contradict him. Instead, it is best to have fun with him. The same attitude should be taken with his friends, who will be unusual. His great energy belongs to his mind, so he needs some help in practicing physical activities. It is very important to show him, as a child, how to take responsibility and to be conscientious about his choices. This will help him to be more responsible and will keep him from choosing the easiest way. Parents should always remember that this child is very special, that he will not follow the usual path, and that the world changes thanks to this kind of person.

### *Gemini Rising Sign:*

If there is no other astrological indication against it, Young will be tall and thin, with long arms and legs. He will have electric movements and an uneasy look in his eyes. He will remain childlike all his life, always looking younger than he really is. Young will be very curious and will always be willing to communicate, which is why he will learn to talk and walk quite fast. He will also be restless and will not be able to stay in one place too long. He can get bored quite easily and will always try to find new things to enjoy. His great intelligence allows him to escape from every kind of control, and also gives him a great talent to entertain when he is with people. Young will be talking with adults very early as well as with children of his own age. He will have no inhibitions about talking. If Young shows a precocious inclination for literature, parents should help him write and bring out his fantasies. If his Sun (as shown above) is located in Cancer or Pisces, it is likely that he will be very easily influenced by and dependent on those around him. That is why parents must always keep an eye on his friends (even as an adult!). He will be able to undertake two or more tasks at the same time. Most likely he will do the same in his love life!

His childhood is ruled by Mercury, and its influence on his intellect is powerful. Usually the place where he lives will be very stimulating. His family will be involved in many changes, and it is probable that this family will be connected with the public, or will be a well-known family. It is possible that Young will do some traveling as a child which may strengthen his tendency to be a journalist. He will be very good at languages, and should be encouraged to study one of them in early years. His relationship with his brothers

and sisters will be very important because he will look for an ally among them. If he does not have brothers or sisters, he will do it with friends. Mercury's beam works as an incentive for his communication and for trading; that is why you should not worry if you see him selling things at school.

**\*\*\* Chapter 2 \*\*\***

**Maternal figure: emotions, feelings, capacity to love and share.**

*Moon in Scorpio:*

Young will have very deep and intense emotions. He will either love or hate something or someone, with nothing in between. The relationship with his mother may contain some tension along with intense love. In spite of any disagreements, they will need each other in order to become stronger.
