This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

Sun in Taurus:

Taurus is an earth sign. You have tremendous powers of actual, physical manifestation of wealth. You relate well to things which have a solid, dependable financial value. Taurus is also a fixed sign. You have innate appreciation for things which will last and increase in value over time.

Your best investment strategy would be to avoid risks and get-rich-quick schemes. Even if there was the chance of making a lot of money quickly, there would be an equal chance of gaining nothing and losing the money you have. Instead, invest in land or a large, good quality house. Make sure that you have researched it first so that there will be no pitfalls and deal only with persons who have a long-term, established, good reputation.

Sun in 7th house:

As you are good at creating a favorable impression with the public, you could acquire prosperity in the public relations field. You have a talent for relationship selling, because you consider what the customer point of view would be and how to make the customers happy. People like to deal with someone who is pleasant, and then they are willing to spend their money.

You might consider a career in the field of law, mediation or marital counseling. You are fair to both sides equally in any dispute, and you are able to find the common ground to bring the two sides together.

Sun Trine Jupiter:

You are a master of the positive attitude required to attain prosperity. You are well aware that prosperity comes in return for generous giving, and you are philosophically high above the plane of just giving in order to get. You have faith that you will always be provided for, and you have moved on from that to a higher mission of uplifting others. You would make an excellent authority to teach others how to pray successfully for prosperity and how to meditate and create more refined brainwaves to envision and manifest their dreams.

Chapter 2: The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Capricorn:

You are very practical and frugal with your money. You seek to get ahead to a better position, and you may work or study at home. You also want your children to do well, and you encourage them to get a good education. You help them get set up in saving and investing their money for this. If you receive money yourself, you are more likely to save it than spend it, in case you need it in the future.

Moon in 3rd house:

You may work in a library or school, encouraging children to learn how to read. Your mother likely taught you how to read and print at a very young age. Your mother may also have taught you a second language, which can be an asset for you in your employment. You would have grown up in the company of relatives and neighbors and developed good social and communication skills. You are likely to invest your money

carefully in a number of different areas.

Moon Conjunct Jupiter:

You are very generous, protective, and caring with your money and your good karma will result in financial prosperity for you in return. You are likely to end up with a very large home, where you will continue to help and enlighten others. You may become involved in providing food for those in need, and you would find this work very fulfilling. You can succeed very well in business because you are honest, nurturing, and aware of the bigger picture, of prosperity being the natural state. You are very receptive to prosperity and goodness.

Moon Square Pluto:

The challenge you face to be in control of your own financial life, rather than have it dictated by your family, eventually inspires you to look deep within and find your own tremendous willpower and strength. Work on resolving any deep emotions which you have about your family matters, in order to free up your own subconscious mind to create your own prosperity. Your positive, prosperity affirmations will then work very well for you, and you are likely to generate much wealth in the long run.

Chapter 3: Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Aries:

You are quick in both your mind and actions, and if you hear of a financial opportunity, you could be there ahead of everyone else to take advantage of it. You have skill at debating and could find prosperity in a field such as law or teaching languages. You would also excel as a dispatcher, cashier, or delivery person.

Mercury in 6th house:

You have an excellent mind for detail and you may be successful in the health or nutrition field, where many precise facts need to be remembered. You are concerned about cleanliness and could work as a cleaner or perhaps as a public health worker or environmental worker concerned with clean air and clean drinking water. Your pattern of thought for acquiring prosperity is that it is received in return for being of practical service to others.

Mercury Opposition Uranus:

Although you have the ability to put your mind up on the high level of intellectual genius, you need to work on your actual manifestation of prosperity. You can do this by fostering more self-discipline, so that you will finish what you start and thus get paid for it. Realize, too, that your access to your higher mind is a gift, to be used for the good of humanity, not to become ego-attached to. You have great potential for wealth here, if you can just harness it.

Mercury Opposition Asc.:

Your excellent communication with your partner is a strong plus towards creating prosperity together. You would be likely to discuss with your partner the logical advantages of each type of investment and work it out together. In business, you would cooperate well with a partner too. Your work may involve law, contracts, marriages or mediation. You would excel in public relations because of your good communication skills and your willingness to take into account the other person's point of view.

Chapter 4: Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Gemini:

You would best profit from having a diversified financial portfolio. You might like to include investments in transportation and communications companies. You have a good, logical mind for understanding how investments work and for keeping track of the many changes in them. Your superior mathematical ability would enable you to do calculations as to which are the best opportunities.

Venus in 9th house:

This is a very fortunate position for making large sums of money. You work hard and energetically, and you are very generous with what you earn. You donate to churches, charities and foreign missions, because your understanding is above the level of materialism. You are grateful for what you receive, and your positive attitude continues to attract more donations and goodwill. You would profit from travel, both financially and in cultural enrichment. You have mastered money, and now you are moving towards an even higher level of spirituality.

Venus Conjunct Mars:

You need to guard against spending your money impulsively. As long as you get enough physical exercise, you will not be tempted to make impulsive purchases for excitement. Make sure, too, that you avoid trying to get others to spend their money when they do not want to. On the positive side, your initiative with money is helpful if you have money invested in something which is not making a profit, because you will have the assertiveness to take it out and put it into something better.

Venus Square Pluto:

You are greatly motivated to achieve financial wealth. In fact, you would even work long hours into the night as part of your strategy to save enough money for the down payment on a house or the chance to start your own business. You like the challenge of finding the most profitable investments, and you could do very well. It would be worth your while to cultivate an honest, caring relationship with your partner, and with other associates, so that they will not come to feel as if they are being used for your financial gain and take

revenge.

Chapter 5: Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Gemini:

You are likely to achieve prosperity through your sharp mind rather than through physical labor. You might work at teaching, debating, translating and communicating. If your work does involve physical activity, it will be something where you can be quick and agile, such as a cashier, shiatsu therapist, or delivery person. In investments, you take the initiative to calculate the most profitable alternatives, and you contact others and discuss your many options.

Mars in 9th house:

You have a very positive, optimistic approach to prosperity. You could make money leading tours to significant spiritual and holy places in other countries. You could be a traveling lecturer who would speak at churches or universities. With your high physical energy, you could lead outdoor sports or expeditions. You would be very good at inspiring others to set ambitious prosperity goals and to achieve them. You are well rewarded financially for your good karma. Just make sure that, to keep peace, you are tolerant of those with a different outlook.

Mars Trine Asc.:

You are inspired to accomplish a great deal because of your high energy level, healthy self-confidence, and positive faith. You cannot help but be prosperous! Your enthusiasm inspires others to success too. You would have what it takes to run your own business, work well with your staff, and make a substantial profit. Your investments are likely to do well because of your overall, positive karma.

Chapter 6: Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Capricorn:

You are very honest and you could be entrusted with a high position in the government, military, or private sector. You are a living example of how someone can start out with very little and work their way to the top. Make sure that you also become open-minded to other life-paths beside your own, however, so that if your children want to be musicians or artists or free-thinkers, for example, you will not alienate them by imposing discipline which is right for you but not for them.

Jupiter in 3rd house:

Your investments in anything to do with travel or communication are almost certain to pay large dividends. You could travel and give lectures, be a tour guide, or run a travel business, or teach in a foreign country. You have a talent for learning about other cultures and languages, and you could make a living from this. You could own or co-own a transportation company, or a shipping firm. You are likely to be highly educated and in a good position to make money.

Chapter 7: Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Gemini:

Once you have decided on your career path, you will be capable of long hours of study which it will take to get you there. Your career will allow you to make use of your logical mind and ability for serious communication. Your career possibilities might include writer, engineer, or accountant. You will invest your money intelligently, with a thorough, logical understanding of the different options.

Saturn in 8th house:

You might have a career in the financial field, advising others how to manage their taxes, debts, investments or wills. You innately understand the strategies as to how to save money and handle it responsibly. These skills could help you to gain money from your own investments. You would do very careful research into the pros and cons before actually investing, and thereby prevent any risks.

Saturn Opposition Neptune:

You have a balance between being able to bring in money to live on and pursuing your creative interests, such as art or music. Ideally, you would be able to make money doing what you most like to do, and you can work towards this in the meantime by working at something related to it, such as working part-time in an art gallery if you like art or working in a music store while you also play your own music.

Saturn Conjunct Part of Fortune:

This is an excellent aspect for setting prosperity goals and achieving them. You have both the breadth of vision to see that joy and prosperity are attainable and the practical discipline to carry out the goals you set and bring that great happiness into being. In financial affairs, you have a balance between expansion and discernment, so that you both invest in broad-scoped, profitable ideas and make sure that they will still be viable over the long term.

Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Libra:

You were born into a generation of people who were highly intellectual. They were well educated and sought to popularize their new knowledge of science for the good of all. The result was a more educated and aware work-force. The overall trend was to value equal rights for all, whether it helped the profit of companies or not. The belief was that human values were more important than the bottom line.

Uranus in 12th house:

Although your awareness is high above the material plane of money, you can still manifest material wealth if you choose, especially if you want it to help those in need. In fact, you may earn your living caring for the poor or the sick. Your good karma, of giving them hope and compassion, would be returned to you if you are ever in need. You are also extremely inventive at living on very little money yourself, if you have to or if you choose to, while you accomplish your higher ideals.

Uranus Conjoint Asc.:

You come across as being intellectually quick and brilliant, and you might pursue a career in scientific innovation, computers or electronics. Because of your tolerance and open-mindedness, you would make a good group leader, especially for those on the leading edge of new thought. You may pursue an astrology career. If you focus on prosperity affirmations, wealth is likely to come to you suddenly.

Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler,

karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Sagittarius:

You were born at a time when there was a movement back to traditional religious and spiritual values. There was compassion and generosity. New ideas came forward about the use of positive affirmations to reach the subconscious mind and attract prosperity. Some people were carried away by illusions about their level of prosperity and they overspent and, for example, bought properties which they intended to flip but were caught with when the bubble burst. Still, their positive thinking carried them through.

Neptune in 2nd house:

You would have talent as an architect, because you could envision how a nice, new building would look and then be able to get it actually built. You dream of wealth and may be able to make your dreams come true if you can become focused enough and grounded enough that you do not just let the dreams be sufficient, rather than do the actual work over time to make them happen. You also need to make sure that, if you acquire money, you keep track of it and do not just let it disappear.

Neptune Opposition Part of Fortune:

Your great joy comes from your ability to explore higher states of consciousness from a detached, intelligent perspective. Because of your objectivity, you do not get caught up in mystical experiences and higher psychic states to the point where you cannot function in the everyday world. Yet, you are able to choose the best, mystical insights and apply them in a practical way which will uplift and inspire others. You would enjoy being a psychic healer, to whom others would come for guidance.

Chapter 10: Pluto

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Virgo:

You were born in an age when health care changed greatly, with the realization that preventive and holistic methods of healing were the key to self-empowerment and individuals were responsible for their own health. An economy grew out of this of alternative healers and client-centered practitioners. Health food stores became popular because of concern about the purity of food. Methods of health care from other countries became known, such as yoga and Tai Chi. New advances in health research were made.

Pluto in 12th house:

If you can successfully tap the resources of your unconscious mind, you can make a fortune. You are very psychic and able to receive answers through channeling or telepathic communication. In order to do this successfully, you need to be a clear channel. Deal with your emotional baggage; avoid drugs and alcohol; and have spiritual motives. If you do acquire substantial money, you will be most fulfilled if you use it to help the poor, the handicapped, and the victimized. Use some of your money to live in a quiet place for further meditation, such as a retreat out in the country by the sea.

Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Libra:

Your prosperity greatly centers around your partner. You are very cooperative with your partner in agreeing upon your equal assets and how to invest together. In fact, you could even run a successful business together, given your superior ability to get along harmoniously. Your work would likely be related to law, mediation, or public relations in other words, sharing your vision of harmony with others. It is because of this excellent karma which you create that you will be rewarded with prosperity.

Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Gemini:

You have freed yourself from the past, and now you can experience the joy of living totally in the present.

There are so many interesting things to learn and people to meet! You can travel to so many places and share stories about the fascinating experiences you have! You can visit your relatives and get to know your neighbors! All the while, you are appreciating God's goodness and living in the Light. You are financially provided for because you are spreading the word that joy is there for everyone.

Part of Fortune in 8th house:

Your prosperity and joy in life come mostly from the transformational experiences which others give you and which you have learned to be open and receive. They may come in the form of intense, personal encounters or they may involve the receipt of other people's money, such as through a will or insurance policy. Your happiness comes from knowing that you are experiencing life at a deeper, more meaningful level and that you are being transformed and regenerated.
